2024 – Present

During my job tenure, I undertook a variety of projects that enriched my **front-end** skills. **Some of the projects are mentioned below.**

- [Learning Management System](#) streamlines employee management with features like leave tracking, attendance monitoring, resource allocation, ticketing and user management systems

React TS

Redux

Mui

Tailwind CSS

React Big Calendar

- [Project Lifecycle Management](#) manages project lifecycles, including complex HTML structures, tree tables, and dragging/pinching/grabbing techniques. Enhances project planning and visualization.

React JS

Redux

Mui

Tailwind CSS

Tree Tables

ReChart

- [News Website](#) Developed a fully responsive news website. Integrated a news API for real-time updates, implemented a search function for easy navigation, and optimized the layout for both mobile and desktop users. Enhanced web development skills through this internship project.

React JS

Context API

Mui

Tailwind CSS

- [HEPTA – TRAVEL AND TOUR!](#) This website is crafted to elevate the travel planning experience with a seamless, intuitive design. From exploring destinations to booking the perfect getaway, HEPTA makes it effortless and enjoyable.

React JS

Context API

Mui

Tailwind CSS

- [Lazarev Freelancing Animated Website](#) Developed an interactive freelancing website. Integrated GSAP and scrolling libraries for smooth animations and engaging user experiences. Optimized for responsiveness and dynamic interactions.

React JS

GSAP

Tailwind CSS

Scrolling Library

- [Quiz App](#) Developed a dynamic quiz platform using React.js, React Hooks, Context API, and Material-UI. Implemented user-friendly features for quiz-taking, progress tracking, and result analysis. Enabled admins to create, manage quizzes, and analyze performance with real-time insights. Utilized Tailwind CSS for a responsive UI and Local Storage for data persistence, ensuring a seamless experience.

React JS

Context API

Mui

Tailwind CSS

- [Food Order App](#) Developed an interactive food ordering app with dynamic meal display, real-time cart updates, and a seamless checkout. Used Context API and React hooks for smooth state management and UI interactions..

React JS

Context API

Mui

Tailwind CSS

- [Myntra E-Commerce Clone](#) Developed a realistic shopping website using core HTML, CSS, and JavaScript. Designed a responsive UI with interactive features for an engaging user experience
